Re: **Oil Shark®** - EPA Sorbent Certification Letter

Dear Sir or Madam,

Cerex Advanced Fabrics, Inc. hereby certifies that our:

Oil Shark® oleophilic spunbond nylon nonwoven fabric is a sorbent material and consists solely of the materials listed in section 300.915 (g)(1)(iii) "Synthetic products" of the National Contingency Plan ("NCP").

Please find attached the associated EPA sorbent approval letters for our products.

Please let me know if you require additional information or have any questions concerning how this product may be utilized in field cleanup activities.

Sincerely,

W. Warren Whitfield
Vice President

OFFICE OF
SOLID WASTE AND
EMERGENCY RESPONSE

1/14/14

Dear Mr. Whitfield:

We have received and reviewed the information you submitted on your company's sorbent "Oil Shark" f/k/a "PBN-II." Our review indicates that this product meets the definition of a "sorbent" as specified in Title 40 of the Code of Federal Regulations (CFR), sections 300.5 and 300.915(g) of the National Contingency Plan (NCP). Based on this review, "Oil Shark" is not required to be listed on the NCP Product Schedule. Please note the product clarifications listed below.

So that you may be prepared to provide On-Scene Coordinators with a certification as referenced in section 300.915(g)(4) of the NCP, the following statement should be reproduced, dated, and signed on your corporate letterhead:

[SORBENT NAME] is a sorbent material and consists solely of the materials listed in section 300.915(g)(1) of the NCP.

It is recommended that your product is not left in situ. It should be collected and disposed of after use. Enclosed for your review is a copy of section 300.915(g) from the NCP. If you any have questions, please contact me at the Office of Emergency Management at (202) 564-1970.

Sincerely,

William Nichols
